

In a day and age where our President is preaching about the benefits of capitalism and free trade, it is utterly concerning that clear attempts to undermine that process by his "big money" supporters only makes me more and more upset. If they aren't the one's gaining from free enterprise then it isn't a fair process to them... HOG WASH!

Congress should be more concerned with the security of it's citizens in these dangerous times rather than the NAB feeling threatened by the same processed that allowed them to become wealthy in the first place.

Whether or not I directly benefit from the stations as a whole or in part is irrelevant...the bottom line is this...

IF NAB FEELS THREATENED THAT THEY ARE LOSING LISTENERS TO A BETTER PRODUCT, THEN THEY NEED TO IMPROVE THEIR PRODUCT.
